## WHO I AM

I am a web developer currently learning Tailwind, Bootstrap, Typescript, Angular, I started programming since I was 12 years old but at that time I had priorities that sadly disappointed me in college, then I realized that I could do what I liked and In what I had fun, programming, I chose web programming because it amuses me and I like to learn, such as mobile web development, mobile and video games in unity, because I used to program textual adventures in C#.

My objective is to improve my knowledge, to be an essential part of my work group or company, to provide and guarantee the best product to the client.
